EDUCATION	Stevens Institute of Technology <i>Ph.D. in Business Administration</i> <i>Information Systems & Analytics Concentration</i> <i>Dissertation: Computational Frameworks for Multimodal Digital Discourse: Essays on Platforms, Podcasts, and Places</i> New York University <i>M.A. in Media, Culture, and Communication</i> Minzu University of China <i>B.A. in Advertising</i>	Hoboken, NJ 2023–May 2027 (Expected) New York, NY 2018–2020 Beijing, China 2014–2018
RESEARCH INTERESTS	Topics: Digital Platforms, Online Communities, AI-enabled Information Systems Methods: Computational Social Science, NLP & LLMs, Multimodal AI	
TEACHING INTERESTS	Business Intelligence & Analytics, Machine Learning & AI for business, Web/Data Mining, Social Media Analytics, Database Management, Fundamentals of MIS	
RESEARCH PIPELINE	<i>Under Review & Revision</i> The Deplatforming Paradox <i>Xiaoxuan Xu, Jingyi Sun, Feng Mai</i> • Major Revision at <i>MIS Quarterly</i> (Preparing for 2nd Round Review) • Presented at INFORMS 2023 Introduces a novel computational framework integrating large-scale NLP (transformer toxicity classifiers and diachronic word embeddings) with causal inference to measure how platform governance reshapes both explicit and latent bias in online communities. Consumer Complaint, Company Resolution, and Consumer Dispute of the Resolution <i>Vivek Astvansh, Xiaoxuan Xu, Feng Mai</i> • Under Review at <i>European Journal of Marketing</i> Applies NLP feature extraction and gradient-boosted models to predict whether consumers dispute company resolutions across 768K CFPB complaints, revealing how emotional and psychological cues in complaint narratives help anticipate disputes. <i>Work in Progress</i>	

Podcasts and Venture Capital: A Computational Framework for Entrepreneurial Communication

Xiaoxuan Xu, Jingyi Sun, Feng Mai

- *Presented at WITS 2025, PDW Computational Methods in Management Research Workshop 2026*
- *Scheduled to present at INFORMS Workshop on Data Science 2026*

Builds a multimodal discourse framework that fuses lexical and acoustic cues to decode podcast interviews. A governed AI pipeline (speech models, bounded LLMs, and human validation) parses RST rhetorical relations over a heterogeneous discourse graph.

When Communities Watch: Locational Public Discourse and Municipal Bond Markets

Xiaoxuan Xu, Jingyi Sun, Ying Wu, Feng Mai

Extracts geo-anchored cultural values from online community posts and links it to municipal bond pricing and liquidity, testing whether locational discourse explains borrowing costs beyond static demographic proxies.

Comparing with the Machine: How Algorithmic Trading Agents Reshape Social Comparison in Online Investor Communities

Xiaoxuan Xu, Maryam Behnam

- *Scheduled to present at 2026 DSI Annual Conference*

Applies a mixed-methods approach to examine how configuration disclosures serve as status markers that reshape collective trust and human-AI decision-making among retail investors.

PRESENTATIONS & TALKS

- *Comparing with the Machine: How Algorithmic Trading Agents Reshape Social Comparison in Online Investor Communities (Scheduled. Nov. 2026) Decision Sciences Institute (DSI) Annual Meeting, San Francisco, CA.*
- *Podcasts and Venture Capital: A Computational Framework for Entrepreneurial Communication (Scheduled. Oct. 2026) INFORMS Workshop on Data Science (DS), San Francisco, CA.*
- *Computational Frameworks for Multimodal Digital Discourse CTO Poster Reception, AOM Annual Meeting, Philadelphia, PA, 2026.*
- *How I Use AI in Academic Research. Pre-College Programs, Business & AI, Stevens Institute of Technology, Hoboken, NJ, 2026.*
- *Computational Frameworks for Multimodal Digital Discourse: Essays on Platforms, Podcasts, and Places. People + Machine Workshop, PhD Student Lightning Talks, Stevens Institute of Technology, Hoboken, NJ, 2026.*
- *A Podcast Analytics Approach for Decoding Entrepreneurial Storytelling. PDW @ Computational Methods in Management Research Workshop, University of Notre Dame, South Bend, IN, 2026.*

- A Podcast Analytics Approach for Decoding Entrepreneurial Storytelling. *PhD Research Showcase Day, Stevens Institute of Technology, Hoboken, NJ, 2026.*
- A Podcast Analytics Approach for Decoding Entrepreneurial Storytelling. *The 35th Workshop on Information Technologies and Systems (WITS 2025), Nashville, TN, 2025.*
- A Podcast Analytics Approach for Decoding Entrepreneurial Storytelling. *School of Business IS&A Research Seminar, Stevens Institute of Technology, Hoboken, NJ, 2025.*
- The Deplatforming Paradox. *MIS Quarterly Author Development Workshop, Virtual, 2024.*
- The Deplatforming Paradox. *INFORMS Annual Meeting, Phoenix, AZ, 2023.*
- The Deplatforming Paradox. *School of Business IS&A Research Seminar, Stevens Institute of Technology, Hoboken, NJ, 2023.*

TEACHING EXPERIENCE

Instructor, Stevens Institute of Technology

- **BIA 568: Management of A.I. Technologies** (Fall 2026)
 - A 45 students course that combines technical foundations in predictive analytics, generative AI, computer vision, and autonomous systems with managerial decision-making. Students evaluate AI performance and cost, match capabilities to business problems, assess sourcing and governance choices, and develop implementation roadmaps through hands-on analyses and an enterprise AI adoption project.

Guest Lecturer, Stevens Institute of Technology

- **BIA 660: Web Mining** (Spring 2026)
 - Led hands-on Python labs on natural language processing (NLP) and large language models (LLM). Walked students with varying levels of programming experience through code examples, interpretation of model outputs, and evaluations.

Teaching Assistant, Stevens Institute of Technology

- **BIA 660: Web Mining** (Fall 2023, Fall 2024)
- **BIA 658: Social Network Analytics and Visualization** (Fall 2023)
- **BIA 652: Multivariate Data Analysis** (Fall 2023, Spring 2024)
- **BIA 650: Optimization and Process Analytics** (Fall 2023)

Certifications

- Certificate of Teaching at the College Level (Spring 2023)

HONORS & AWARDS	• Doctoral Consortium Fellow, AMCIS	2026
	• FutureBAProf Workshop Selected Participant, Tippie College of Business, University of Iowa	2026
	• Doctoral Consortium Fellow, AOM CTO Division (Travel Fund from NSF - \$1,000)	2026
	• Graduate Conference Funding (\$5,000), Stevens Institute of Technology	2024–2026
	• MIS Quarterly Author Development Workshop Selected Attendee	2024
	• Provost Doctoral Fellowship, Stevens Institute of Technology	2022
	• The Conference Fund (\$1,000), New York University	2019
	• Global Study Scholarship (\$3,000), New York University	2019
	• MUFG Bank Scholarship (CNY 4,500), Minzu University of China	2018
	• First-Class Academic Scholarship (CNY 8,000), Minzu University of China	2014–2017
	• CCTV 2nd National Public Service Advertising Competition, Silver Award (CNY 8,000)	2016
SERVICE & MEMBERSHIPS	Conference Reviewer	
	• Conference on Information Systems and Technology (CIST)	2026
	• INFORMS Workshop on Data Science (DS)	2026
	• International Conference on Information Systems (ICIS)	2025
	• Workshop on Information Technologies and Systems (WITS)	2025, 2026
	• Hawaii International Conference on System Sciences (HICSS)	2024, 2026
PROFESSIONAL EXPERIENCE	Memberships	
	• INFORMS, Association for Information Systems (AIS), Academy of Management (AOM), Decision Sciences Institute (DSI)	
	Elsevier , Marketing Specialist	Beijing, China, 2021
	– Built and analyzed CRM dashboards to benchmark, target, and track engagement across marketing campaigns for Elsevier’s research-product portfolio. Developed interactive Tableau reports that translated product-usage and ROI data into evidence-based renewal narratives.	
	SinoVision , Financial News Intern	New York, NY, 2020
	– Collected, analyzed, and visualized daily market data and economic indicators to support financial news production; researched, wrote, and fact-checked breaking stories under deadline.	
	Ipsos , Quantitative Research Intern	Beijing, China, 2017

- Managed social-media time-series databases and performed text and content analysis to evaluate media solutions; prepared quantitative reports and client deliverables.

Volunteer Service

Beijing, China, 2017

- *The 1st Belt and Road Forum for International Cooperation*
- *China Open (ATP/WTB Professional Tennis Tournament)*

TECHNICAL SKILLS

Programming: Python, R, Stata, SQL, $\text{\LaTeX}$

AI, LLMs & NLP: RAG, Fine-tuning, API Workflows, Transformer Models

Quantitative: Econometrics, Causal Inference, Machine Learning, Network Analysis
